

Dear AISZ Community,

We moved to our Virtual Learning Program yesterday and we will monitor our students' engagements in the classes carefully. Please do not hesitate to reach out through homeroom teachers if need to.

The current health situation is also being monitored across all our students, their families and our faculty.

Keeping the School Informed

Even during Virtual Learning it is essential that you inform Dr. Romana if there are any COVID-19 positive cases or Self Isolation situations developing at your home. Our accurate tracking of these will help inform any decisions we make, so please keep the school informed of any developments that happen at your home..

The current situation is:

Staff

- 4 staff positive COVID-19 cases:
 - Two new cases
 - Assistant in Grade 3
 - Assistant in Pre Kindergarten
- 1 staff from watch list tested negative
- 3 staff members self isolating due to themselves or family members being contacts of positive cases in the community,
- 5 staff members monitoring health
 - 2 with scheduled tests

Students

- 3 positive cases.
- 2 cases recovered
- 9 students self - isolation as a result of being contacted within a family having a positive case.

Yours sincerely,

Paul Buckley
